

CIT 155

Chapter 7 Lab1

Complete Lab #1 on pages 389-392, all parts. Note: Some things I saw when working through this lab:

- on the template.html document there is no comment for the date
- Step 4: it should read instructors.html not nutrition.html. The title should be within the `<title></title>` elements
- Step 16. Be careful here. What you need for the grid class is:

```
display: grid;  
grid-template-columns: auto auto;  
grid-gap: 20px;
```

- Step: 18:

```
grid-template-columns: auto auto auto auto;
```

If you have any problems contact me prior to the due date. Compress all files into a zip or rar file. Include the css and images folders and all html documents. Upload to the correct drop box in Blackboard.
