

CIT 155: Web Page Development Chapter 8 Lab 4

Complete Lab #2 on pages 456-461. Comments on steps:

- Step 9: There is no style for the .desktop. Add this first as:

```
.desktop {  
    display: block;  
}
```

- Step 15: Be cautious here. For several parts of this step it mentions "value" of something. This means the value attribute.
- Step 15 b: the name attribute for the input element should be vol not info.

Compress all folders and html documents into a single zip or rar file and submit.
